

AVERY DONKIN

Avery Donkin completed her undergraduate degree in Biology in 2019 and will complete her DDS degree in 2023. She has made an impact at UofT by acting as the Community Representative for her class in her first three years. In her second year, she became involved with NAG, with whom she continues to raise awareness and fight the debilitating effects of noma. In her third year, she also became the Sustainability Commissioner for the Dental Students' Society. She will continue to give back to the community while completing a GPR in Salt Lake City, Utah in the next calendar year.
