

RIYA GEORGE

I first learned about noma through Dr. Rosenbloom and upper years (Jacob, Vivian, Kabeer, and Avery) back in 2021. The stories and images shared during the NAG events left a mark on me and led me to join NAG. Over the past few years, more and more people are talking about noma not only in our school but across Canada. I am excited to work with the incredible members of NAG this year to create events to engage more students in conversations about noma and to fight to raise awareness globally!
