

ANDREW SETO

Throughout dental school, I have had the pleasure of both working with and getting to know Dr. Rosenbloom. After listening to him speak about the challenges of working as a dentist with vulnerable populations in Africa and championing noma activism, I was inspired to broaden my perspective on oral health and learn about the different challenges that present themselves outside of North America. Joining NAG was a perfect opportunity for me to learn more about oral healthcare challenges in a global environment and to also contribute to my school's community.
